

## PREFACE

---

We didn't want this to be a normal bathroom brochure...

Instead, we wanted to create a technical product resource - a bible for the bathroom, if you like. This new 2024 brochure has sound advice for planning your new dream sanctuary. From sizing, layouts and plumbing, we think we've got the important points covered.

A major consideration is size - will the bath, shower, toilet and basin fit? Can these items be installed easily? Will your water system work well with the new parts? Hopefully, this brochure will provide answers to the dilemmas that often pop up.

Over the last few years, we've been working hard on new bath models. These baths are designed to

work in smaller spaces. Our Tubby range shows how we are designing products to work in everyday life. Shorter, yet deeper, these tubs provide a new type of bathing comfort.

Our definition of a great product is one that looks good and works well. We try to follow this mantra in everything we do.

We're on the other end of your phone, so give us a call to discuss your new, exciting project.

We look forward to hearing from you.

{ a great product is one that looks good & works well }

# ALBION BATHS

Hand made and unique.

Back in 1994, Albion's founders had a mission - to create the ultimate bathtubs. After looking at the market it was clear that only two materials were available at the time. Acrylic, which is a soft plastic, became popular in the 1970's due to ease of manufacture and low cost. However, acrylic's properties fell short of what the customer wanted. It's flexibility was always an issue. People reported a dread of taking a bath, as they felt the tub might break under their weight. People also said that acrylic was easy to scratch and always had a 'cheap look about it'. These shortcomings remain today.

Cast Iron baths have been used for over 120 years. They've gained a reputation for being the 'real-thing' however, cast iron has many drawbacks, such as excessive weight, incredible heat loss from the bathing water and a proneness to surface chipping. Homeowners also found that liquid cleaners would ruin the white interior surface.

After two years of development, Albion had it sorted. A new material was created from an amalgam of high technology resin and a special reinforced mineral. Manufactured in our own factory, this material was named Iso-Enamel due to its high strength and hard surface. This formulation is cast into moulds and allowed to harden. To this day, our special process is unique and offers benefits that other materials cannot provide.

So what's so good?

An Albion bath is 1/3rd the weight of a cast iron bath. The average weight of our roll top baths is 70kg.

Your bathing water will stay hotter for up to five times longer.

Clean your Albion bath with all modern liquid cleaners.

An Albion bath has a hard, high gloss interior that gives years of sterling service.

Customise the bath exterior with any colour from the Dulux or Farrow and Ball colour pallettes - or choose one of our burnished metallic options.

Made by hand here in our Weeley, Essex factory. We mould, trim and polish our baths to the highest standard.

{ Our unique material creates a difference you can feel }

## BATH & FEET FINISHES

---

Let Albion personalise your bath with our unique, hand applied finishes.

BRONZE

GOLD

IRON

### Burnished Metallic

This is a four coat painting process that creates a swirly, mottled metallic surface. We provide three colour options in the burnishing range; bronze, iron and gold - all shown.

---

“Painted” finish - Dulux (not Light & Space) or Farrow & Ball ranges equivalent;

“Burnished” finish (Gold, Iron or Bronze)

Polishing & plating to bath feet;  
Chrome OR Nickel

### Painting

Simply select any paint colour from our specified ranges for your bath exterior. We can provide the equivalent colours from Dulux or Farrow & Ball ranges. All we need from you is a colour name or code and we'll do the rest. The sprayed process gives a smooth finish with a slight sheen. It is hard wearing, washable and will stand the test of time. If you fancy a change of colour in the future, the surface can be painted over.

### Feet Finishing Options

Match the feet of your bath with any paint colour from Dulux or Farrow & Ball ranges. Or choose a Burnished colour of Bronze, Iron & Gold. Alternatively, choose from Chrome or Nickel plated to match your plumbing fittings and add a touch of glamour!

Clockwise from top left; Chrome plated, Nickel plated, Burnished Iron, Burnished Gold & Burnished Bronze.

{ Traditional roll top designs made in a contemporary way -  
- Our unique material keeps your bath water hotter for longer }

## ALBION ROLL TOP BATHS

Our 'Iso-Enamel' recreation of the timeless cast iron roll tops.

## APOLLO

---

The Apollo Double Ended Bath can be supplied with all the required waste fittings including the plug, overflow system and p-trap underneath. The waste pipe can be routed into the floor void underneath the bath. If this is not possible, then the waste pipe can be routed through the side to locate with your intended plumbing route.

---

This bath is available in two sizes:

1770L x 770W x 770H (mm) - 50kg

1985L x 860W x 780H (mm) - 78kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

Please call for delivery and installation details on 01255 831605

## APOLLO CLASSIC

---

The Apollo Classic Double Ended Bath can be supplied with all the required waste fittings including the plug, overflow system and p-trap underneath. The waste pipe can be routed into the floor void underneath the bath. If this is not possible, then the waste pipe can be routed through the side to locate with your intended plumbing route.

---

This bath is available in one size:

1815L x 870W x 780H (mm) - 63kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

Please call for delivery and installation details on 01255 831605

## GEMINUS ADVANCE

---

The Geminus Advance Double Ended Bath can be supplied with all the required waste fittings including the plug, overflow system and p-trap underneath. The waste pipe can be routed into the floor void underneath the bath. If this is not possible, then the waste pipe can be routed through the side to locate with your intended plumbing route.

---

This bath is available in two sizes:

1670L x 740W x 650H (mm) - 53kg

1810L x 770W x 630H (mm) - 69kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

Please call for delivery and installation details on 01255 831605

## GEMINUS FEET

---

---

This bath is available in two sizes:

1670L x 740W x 620H (mm) - 49kg

1810L x 770W x 650H (mm) - 65kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

The feet can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze
- Chrome or Nickel plated

Please call for delivery and installation details on 01255 831605

## GEMINUS LINEA

---

---

This bath is available in one size only:

1810 L x 745 W x 650 H (mm) - 120 kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

Please call for delivery and installation details on 01255 831605

## GEMINUS PLINTH

---

The Geminus Plinth Double Ended Bath can be supplied with all the required waste fittings including the plug, overflow system and p-trap underneath. The waste pipe can be routed into the floor void underneath the bath. If this is not possible, then the waste pipe can be routed through the side to locate with your intended plumbing route.

---

This bath is available in two sizes:

1670L x 745W x 645H - 55 kg

1810L x 770W x 705H - 72.5kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

The plinth can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

Please call for delivery and installation details on 01255 831605

## IMPERIUM FEET

---

---

This bath is available in three sizes:

1645L x 770W x 770H - 55.5kg

1765L x 760W x 780H - 66kg

1810L x 870W x 780H - 62.5kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

The feet can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze
- Chrome or Nickel plated

Supplied without tap holes

Please call for delivery and installation details on 01255 831605

# IMPERIUM PLINTH

---

The Imperium Plinth Double Ended Bath can be supplied with all the required waste fittings including the plug, overflow system and p-trap underneath. The waste pipe can be routed into the floor void underneath the bath. If this is not possible, then the waste pipe can be routed through the side to locate with your intended plumbing route.

---

This bath is available in three sizes:

1645L x 770W x 770H - 55kg

1765L x 760W x 770H - 69kg

1810L x 870W x 785H - 68kg

Add the Exposed Bath Waste and Overflow Kit in Chrome OR in Nickel.

The bath exterior can optionally be finished to your choice:-

- Any Dulux or Farrow and Ball Colour
- Metallic Burnished in either Gold, Iron or Bronze

The plinth can optionally be finished to your choice:-

- Metallic Burnished in either Gold, Iron or Bronze

Supplied with or without tap holes

Please call for delivery and installation details on 01255 831605

## BATH FITTINGS

Albion manufacture the full range of complimentary fittings to enhance your free standing bath. The stand pipes shown (far left) can be used with both modern and traditional bath taps. To be used on baths without tap holes, Albion stand pipes will grace your new bath when positioned away from an adjacent wall. For baths with tap holes, use pipe shrouds as shown (middle image).

A full range of exterior plumbing components are also available from 'P'-Traps to waste pipes, elbows and joints.

Exposed Bath 90 Degree Pipe/Floor Shroud Kit in Chrome OR in Bright Nickel

## OVER-BATH SHOWERS

---

Combine your freestanding bath with a functional over-head shower & get the best of both worlds - luxury bathing & showering in one package.

Our Effusio over-bath shower can be installed over any Albion free standing bath. This gives you the benefit of combining luxury bathing with a functional and powerful shower.

The unique design allows the bath to be located anywhere in the bathroom, as this system does away with the need for any wall support. Suitable for all ceiling heights from 2.3 metres to 4 metres.

The Effusio rail system is available in four sizes to suit all sizes of Albion baths. See following page for optional upgrades to create the ultimate statement in your bathroom.

Effusio Shower Track, Rising Pipe and 5" Rose. 1275 L x 625 W in Chrome

Effusio Shower Track, Rising Pipe and 5" Rose. 1625 L x 625 W in Chrome

Effusio Shower Track, Rising Pipe and 5" Rose. 1625 L x 900 W in Chrome

Effusio Shower Track, Rising Pipe and 5" Rose. 1900 L x 900 W in Chrome

Standard 5" Rose

8" Rose Upgrade

12" Rose Upgrade

Albion over-bath shower upgrades allow you to tailor your bathroom to your every need. Add Albion's optional riser cradle and diverter to your Effusio to allow a flexible hand shower option - ideal for rinsing your hair whilst in the bath.

Enhance your showering experience by upgrading the standard 5" diameter shower head to the stunning 8" or 12" diameter option for that superb drenching shower.

### Options

8" / 12" Rose (upgrade price) in Chrome

Riser Mounted Soap Basket in Chrome

Riser Cradle and Divertor FOR BEAUFORT TAPS in Chrome

Riser Cradle and Divertor FOR AMIE & MANETTE TAPS in Chrome

Optional additional length ceiling stanchions (for ceilings over 2600) each additional 500mm/pair; in Chrome

Optional curved stanchions for wall fixing of Effusio; in Chrome

## FAQ'S

## YOUR QUESTIONS ANSWERED

**Q** How difficult is it to install a freestanding bath?

**A.** It's very easy and much simpler than installing a built-in tub. The hot and cold water feeds and the waste pipe are all standard connections. Furthermore, Albion can supply all the exposed plumbing components if needed. These are finished in Chrome.

**Q** I've looked at many other freestanding baths. Why are Albion baths so much better?

**A.** Our unique manufacturing process and material produces a bath that is strong, durable and hard wearing. When compared to acrylic baths, our material is stronger and more solid. Our Iso-Enamel coating has a hard, glossy feel without the semi-transparent look of acrylic. When compared to cast iron, Albion baths are roughly a third of the weight and retain the heat in your bathing water. Cast iron baths actively cool your water due to their thermal shortcomings. Our Iso-Enamel material can be cleaned with all non-abrasive liquid cleaners. In short, Albion has created a material that is strong and solid yet easy to live with.

**Q** Do I always need the exposed plumbing parts such as the p-trap and polished pipe work?

**A.** Not always. It depends on which bath you choose and where it is located. For example, the Apollo bath has normal plastic plumbing components underneath. Baths with feet may need the exposed p-trap and polished pipe work to finish off your new bathroom project. As this depends on individual requirements, please call us for advice.

**Q** Many of Albion's baths sit directly on the floor. How is the waste plumbing arranged underneath?

**A.** All bath waste systems need a component called a p-trap. This stops foul air from the drains returning into your bathroom. Albion baths that sit directly on the floor (models such as Apollo, Torre and Duo) can have the

p-trap directly underneath the base of the bath but above your floorboards. If you can route the waste water pipe under your floor boards, then simply connect the bath outlet to the under floor plastic pipe with the supplied fitting kit. If however, the waste pipe cannot be routed under the floor, then the waste pipe will need to be routed through the side-skirt of the bath. Your plumber can easily drill a hole through the side skirt in a position of their choosing.

**Q** I have heard that cast iron baths can only be cleaned with soapy water. What can Albion baths be cleaned with?

**A.** Albion baths can be cleaned with any modern non-abrasive liquid cleaner. The Iso-Enamel surface is chemical resistant and hard wearing. For lime scale build-up, we recommend using a dedicated lime scale remover and then immediately rinsing the surface with warm water. Repeat this process until the lime scale has dissolved. We would not recommend the use of abrasive powders or creams. These products simply grind off dirt but scratch the surface of any material.

**Q** If I am unfortunate enough to damage my Albion bath, can it be repaired?

**A.** For scuffs and scratches, use a good quality car polishing cream such as T-Cut.

**Q** Your brochure shows bath exteriors in many different colours. What finish can I have and how do I choose?

**A.** Our baths can be painted in any colour from our specified ranges, one of our three metallic "Burnished" finishes. If you choose a paint colour, simply give us the colour name or code we'll do the rest. We don't need to know your colour choice at the point of ordering. You can also choose various finishes to the bath feet such as our unique Burnished process, Nickel or Chrome plating or a paint colour.

Having trouble choosing your favourite style?

this might help...

Beaufort

Delicate, slender cross head valves - the ultimate traditional design. With hot and cold indices.

Supplied in Chrome ONLY

Amie

Similar to Beaufort, but more rounded and curvaceous. With hot and cold indices. .

## HANDMADE BATHROOM FURNITURE

ALBION CLASSIC UNIT 1020mm

## ALBION CLASSIC

---

Our ever-popular Albion Classic basin has found a new style. We've created a beautiful vanity unit for this glorious ceramic basin to rest upon.

With ample storage to hide those bathroom essentials, the vanity unit can be painted to a colour of your choice.

For additional customisation, and to match your tap finish, the knobs and hinges can be finished in either Chrome, Nickel or Brass..

### Albion Classic

Available in one size only:-

710W x 590D x 920H Basin & Vanity Console  
1020W x 600D x 900H Basin & Vanity Console

Supplied with 3 tap holes ONLY

Finishing options:-

Painted finish to vanity unit - Dulux or Farrow & Ball ranges equivalent (satin only)

'Speculo' mirror with painted frame 1070 W x 760 H (mm) shown above.

## ARREZZI

---

Our contemporary Arrezzi vanity units are manufactured in 8 different widths of 450, 550, 620, 800, 1000, 1210, 1250 & 1410 (mm). To customise, the vanity unit base can be painted in any Dulux or Farrow & Ball colour. Finally, choose from either Chrome or Nickel door knobs to match your taps.

### Arrezzi Vanity Unit

Available in eight sizes:-

1410 W x 460 D x 820 H Vanity Console

1250 W x 485 D x 820 H Vanity Console

1210 W x 460 D x 810 H Vanity Console

# HAMAR

---

Albion's range of Hamar Vanity Units bring the bathroom to life. With the gentle curves of the ceramic basin, combined with the classically styled vanity console, this Albion design provides practical storage in a beautiful package. The Hamar basin is available in three widths of 1050mm, 850mm and 750mm. All are supplied with a single tap hole, so any of Albion's mono basin mixers will complete the package.

To customise, the vanity unit base can be painted in any Dulux or Farrow & Ball colour. Finally, choose from either Chrome or Nickel door knobs to match your taps.

## Hamar Vanity Unit

Available in three sizes:-

750W x 460D x 810 H Basin & Vanity Console

850W x 460D x 810 H Basin & Vanity Console

1050W x 460D x 810 H Basin & Vanity Console

Supplied with MONO tap hole ONLY

Finishing options:-

Painted finish to vanity unit - Dulux or Farrow & Ball ranges equivalent (satin only)

# HAMAR LINEN CABINETS

---

## THE NEW MEMBER OF THE HAMAR FAMILY

Here is the latest addition to the Hamar range. Our new linen cupboards are designed and made here at our Weeley factory in two sizes with options for shelves and cupboards.

With four levels of storage, you'll have ample space for all the essential and decorative bathroom essentials.

As with all our bathroom furniture, the Hamar Linen cupboards can be painted in a colour of your choice. Simply choose from any Farrow and Ball or Dulux colour and we'll take care of the rest.

### Hamar Linen Cabinet

Available in two styles -

4 open Painted Shelves 540W x 320D x 1970H

3 open Glass Shelves with Lower Cupboard 940W x 320D x 1970H

Finishing options:-

Painted finish to Linen Cupboard - Dulux or Farrow & Ball ranges equivalent (satin only)

## FINEST SANITARYWARE

p.112 Arrezzi Basins & Toilets

p.114 Volda Basins & Toilets

Luxurious Italian sanitaryware, manufactured especially for you.

Choose from a selection of modern and traditional designs for bathrooms big and small.

## ALBION CLASSIC BASINS

---

710 W x 590 D x 910 H Basin on Pedestal

Albion Classic is a complete range of basins and toilets that hark from the Edwardian era.

Slightly down the size scale is the 710mm wide basin, and for more compact rooms there is a 600mm wide version. Both can be mounted on a china pedestal or on our Concours tubular stand.

Albion Classic basins are always supplied with three tap holes to suit '3-hole' basin taps.

Basin on Pedestal

600 W x 510 D x 820/890 H

Available in 3 TAP HOLE format  
ONLY

Basin on Concours Stand  
CHROME

for 600 and 710 wide basin.

Basin on Pedestal

710 W x 590 D x 840/910 H

Available in 3 TAP HOLE format  
ONLY

## ALBION CLASSIC TOILETS

---

The Albion Classic range is completed by three options of toilet.

The grand high-level toilet with its tall flush-pipe makes a bold statement but is also great for small bathrooms. This is due to the cistern being above eye line and giving a sense greater volume.

Taking things a touch lower, consider the low level version with a short flush pipe between the cistern and pan.

For visual simplicity, the close-coupled version ticks the boxes. At only 770mm high this toilet is ideal for location under a window or any other defined obstruction.

Three options of seat are offered – gloss white, gloss black and walnut.

Low Level Toilet CHROME  
(excludes seat)

(plating option applies to flush  
button and flush pipe)

Close Coupled Toilet CHROME  
(excludes seat)

(plating option applies to flush button)

High Level Toilet CHROME  
ONLY (excludes seat)

Low Level Toilet with Walnut Toilet Seat

Walnut Toilet Seat

Black Toilet Seat

White Toilet Seat

## MISTLEY

---

Mistley cast iron toilets will create the ultimate in traditional design. Suitable for properties of a truly period nature, these pieces are designed to fit in all sizes of bathrooms.

The cistern can be finished in a colour of your choice - this allows a colour matched to your Albion bath. Simply choose any Dulux or Farrow & Ball colour, or choose one of our three metallic 'Burnished' finishes. An optional cast bronze plaque is available for those special bathrooms.

To eliminate internal corrosion, the Mistley cistern is cast from marine grade aluminium. This is then internally coated with a high technology epoxy coating. To ease installation, the fresh water inlet can be placed on the left or right hand side. Additionally, the chain pull or lever can be located on the left or right.

## ARREZZI

---

Comprising of a full range of basin and toilet options, Arrezzi is a fusion of both modern hard lines and soft curvature.

Arrezzi basins can be wall or counter-top mounted, or we can create one of our unique concours stands with either a granite shelf or towel rack. With a large range of basin sizes, this design ticks all the boxes.

The toilets and bidets are supplied in either close-coupled or back-to-wall versions.

Arrezzi White Toilet Seat  
(inc. Soft Close  
Mechanism)

Back to Wall Toilet (includes concealed cistern)  
380 W x 510 D x 420 H  
(excludes seat)

Back to Wall Bidet  
MONO HOLE  
380 W x 510 D x  
420 H

Close Coupled Toilet  
(includes concealed cistern)  
380 W x 660 D x 420 H  
(excludes seat)

The beautiful Volda range comprises of five sizes of basins. For small, stylish cloakrooms use the petite 500mm wide, wall hung basin. Supplied with two tap holes for individual taps, this wall basin will enhance the smallest room in the house.

For main bathrooms and luxurious en-suites, the Volda range of basins encompass 550mm, 650mm, 750mm and a generous 1100mm wide. Choose from a single or three tap hole format. All are suitable to be wall hung, or can be mounted on beautiful stands. To add a touch of practicality, specify the stylish towel rack - mounted integrally into the

basin stand.

Toilets are supplied in close coupled or back to wall format with a matching bidet if needed. The back to wall toilet is supplied with a concealed cistern.

10mm thick toughened safety glass, low level Iso-Enamel shower tray, stainless steel fittings.. why choose anything else?

## THE TECHNICAL ADVANTAGES

All Albion shower enclosures are manufactured using 10mm thick safety glass. This provides superior rigidity and durability. Toughened to BS6206, this glass is up to five times stronger than an equivalent sheet of normal glazing material. All edges, whether exposed or not, are bevelled and polished - this provides a luxury finish with superior optical appearance.

To accomodate all bathroom layouts, each design is available in a left and right handed version. To add to this, our enclosures can use either on the low level Albion tray or, for additional size options, mount onto a tiled floor.

10mm Thick Glass - Rigidity Guaranteed.

Albion use only 10mm toughened glass conforming to EN12150. Our glass is thicker and therefore stiffer than many other manufacturer's shower enclosures.

Stainless Steel Fittings.

To provide the ultimate in corrosion resistant performance, Albion manufacture all the associated fittings from 304 grade stainless steel. This material, which contains 18% chromium and 8% nickel, has excellent corrosion resistance when in contact with different corrosive cleaning materials. Don't worry if liquid limescale removers are needed to keep your new shower clean - Albion's stainless steel fittings will stay looking pristine.

A Vast Range of Sizes and Formats.

Choose from side entry or corner entry. Alternatively go for a 'Walk-In' format. Albion shower enclosures can be mounted on our unique trays or situated directly on a tiled floor.

## UNIQUE SHOWER TRAYS

Like our bath tubs, Albion shower trays are made using our unique Iso-Enamel material. The strength of this material allows us to make the tray only 45mm high. Waste water is drained via 2 full size waste fittings hidden under our Albion drain plate. Watch the water disappear around the edge without any ugly visible plumbing fittings.

Albion shower tray inc. Chrome waste plate:-

For year round convenience, specify your towel warmer to be powered by central heating and electric. Warm, dry towels on demand!

## TOWEL WARMERS & RADIATORS

From simple towel warmers to complete bathroom heating, Albion have the answer. With all classical and contemporary designs catered for, Albion towel warmers can be powered via your central heating, mains electricity or a combination of the two.

Finished in Chrome or Bright Nickel, these products provide the ultimate finishing touch.

To ascertain the heat output (Btu) required per room, multiply the length x width x height of the room (in feet) x 4. I.e. Room length 10ft x Room width 8ft x Room height 8ft x 4 = 2560 Btu's required for a output of 50°C please note other manufacturers may be to 60°C.

# AQUARIUS

---

A unique combination of functional towel radiators and effective bathroom heating. These units will provide storage for your towels together with a generous level of heat output to warm even the coldest of rooms. Their compact dimensions allow installation in otherwise redundant areas. As with other towel radiators in our range, these units are available finished in Chrome or Nickel. Normally powered from your central heating, these units can be powered by an electric element or a combination of both.

Aquarius 1 (excludes valves) -  
1000 H x 522 W 2443 btu.

Add radiator valves

Ballerina wall or floor mounted towel warmers. Manufactured to BS2871 from the very highest quality brass tube and hot stamped fittings, these can be powered via your central heating or mains electricity. Finished in Chrome or Bright Nickel, these products provide the ultimate finishing touch. A vast range of sizes are available so please call us for further information.

Regency wall or floor mounted towel warmer/radiators. Finished in Chrome or Bright Nickel, these products provide the ultimate finishing touch. There are three options of energy supply to these radiators - hot water from your central heating, electric power via an electric element installed into the radiator or a combination of the two. This allows summer operation when your central heating is off.

Powered by:

- Central Heating only
- or Timed Electric only
- or Central Heating and Timed Electric

Finished in:

- Chrome
- or Bright Nickel

Regency Floor Mounted (excludes valves) :-

- 740 H x 975 W 2864 btu. in Chrome OR in Bright Nickel

Add radiator valves

Note - all radiator valves are supplied with 15mm polished and plated supply pipes.

## ALBION'S SHOWROOM

---

Our luxury showroom and factory are based in Weeley, in the beautiful rural area of north Essex. With a large range of freestanding baths, brassware, sanitaryware, radiators and shower enclosures on display, why not come and visit us? You could even make a weekend of it. There's plenty of things to keep you busy, such as picturesque Dedham and the idyllic Flatford Mill, as seen in many of Constable's paintings. Enjoy a coastal walk in the seaside town of Frinton or visit the award winning Colchester Zoo, one of the finest zoo's in Europe.

We are situated approximately 90 minutes away from London Liverpool Street, so there's really no reason not to come along and see our flagship showroom!

## FACTORY TRADE PRICE LIST - EFFECTIVE MARCH 2024

Albion baths are handmade at our Factory in Essex, using our unique amalgam of a special resin and ground stone. This gives you a bath that is both strong and durable. Not to be confused with cheap acrylic, the chemical glaze gives you a hard, bright and easily cleanable surface. Unlike cast iron, Albion baths will retain the warmth in your bathing water - no more topping up with the hot tap!

Albion roll top baths can be painted in a colour of your choice. Choose any Dulux or Farrow & Ball colour to create the perfect compliment to your bathroom design. Alternatively, choose one our of three metallic 'Burnished' finishes Gold, Iron or Bronze.

## TOWEL WARMERS AND RADIATORS - CHROME OR NICKEL

To ascertain the heat output (Btu) required per room, multiply the length x width x height of the room (in feet) x 4. I.e. Room length 10ft x Room width 8ft x Room height 8ft x 4 = 2560 Btu's required for a output of 50°c please note other manufactures may be to 60°c.

rail.Aqu1	Aquarius 1 Towel Rail 1000 H x 522 W 2443 btu output (excludes valves)	1759.00	1935.00
rail.Aqu2-500	Aquarius 2 Towel Rail 825 H x 500 W 1310 btu output (excludes valves)	1686.00	1855.00
rail.Aqu2-675	Aquarius 2 Towel Rail 825 H x 675 W 1945 btu output (excludes valves)	1729.00	1902.00
rail.Aqu2-745	Aquarius 2 Towel Rail 825 H x 745 W 2289 btu output (excludes valves)	1775.00	1953.00
rail.Aqu3	Aquarius 3 Floor Mounted 1500 H x 500 W 2518 btu. (excludes valves)	1780.00	1958.00
AD1	Arcadia Floor Standing Rail 850 H x 600 W x 235 D 1498 btu. (excludes valves)	1836.00	2020.00
BL2BJFW	Ballerina 3 Rung Floor Mount 938 H x 675 W 665 btu. (excludes valves)	1275.00	1403.00
BL4BJFW	Ballerina 3 Rung Floor Mount 938 H x 825 H 708 btu. (excludes valves)	1322.00	1455.00
